Comment text:

Being moved from woodbury to Lindridge i feel that we are yet again poorly served. Certainly in the former woodbury there was a balance but now on the edge of the enlarged lindridge is an out lying largely agricultural ward with no great population we also rarely travel that direction in that all our services and utilities come from the greatwitley direction, now absorbed into the ridiculously large "baldwin" we would certainly have more in common with the demography in baldwin than lindridge.
