Comment text:

The growth in housing in kempsey has changed this village. Antisocial behaviour needs nipping in the bud. More activities for teenagers needed. More shops to cut down car travel. Bus service is abysmal. Ketch roundabout desperately needs traffic lights. Our roads are currently ruled by aggressive drivers. Many retired people live in kempsey. These older drivers should feel safe & happy to pop to Worcester / Malvern at any time of day. Currently this is a nightmare. The ketch & Powick roundabouts are horrendous. Cheltenham have traffic signals at all their town roundabouts. Why can't we do same ? I want councillors who will do something about this huge issue. Before long a very serious or fatal accident will happen at the Ketch. Drivers approaching from Whittington at 60 mph & slamming on brakes at last moment. Very dangerous. When traffic free flowing & busy , People play dodgems to get across from kempsey to Worcester. Some one has to tackle this issue which is effecting the residents of Kempsey & everyone else using the A38.
