Comment text:

As a resident of the croxteth park estate, (L12) I must stress concern that we are not represented by our ward councillors. Their focus is always on Croxteth and funding directed there also. As a tax payer I would like to see greater attention and priority given our local area. The community take pride in our estate but need councillor support which is lacking. West Derby also seems to have great support also and we just want that for our area. Currently we have raised concerns over vandalism, dangerous parking, lack of up keep to retail areas, poor road surface conditions, previous concerns over development plans, anti social behaviour etc but do not feel any of these points are being comprehensively addressed. On assessing the ward area and proposals I would appreciate you taking these concerns into consideration when allocating resources to our area.
