There are 3 councillors in each ward. Utter utter overkill. This needs seriously trimming down, too 1 councillor or two at the most. I think you need to keep the ward structure so that local councillor can deal with local issues. Ideally i would have one councillor and pay them more. Also very confusing for the electorate 3 councillors in each ward. Also i would make it a prerequisite that local councillors live within the city boundaries. Embarrassing that councillor living in Spain and receiving allowance form city taxpayers . This surely has to stop
