This "Harvesting of Public Opinion" is a shoddy [and SHADY] form of "lip service", representing an Absolute MINIMUM level of Consultation with Liverpool residents [and TAXPAYERS]. Anyone not 'Computer Literate', which will inevitably include a significant percentage of Older Residents who have paid their taxes and other dues throughout their lives, will in effect be DISENFRANCHISED. It was poorly advertised and given NO prominence in local Media / Other public outlets. Once you have located the Web page, you still have to jump through several Hoops before reaching this [present] page in order to register an Opinion. The whole process is unnecessarily complicated and appears to be Designed to Fail. The Interference of a 'Hitman' appointed by Central Government to "watch over" everything Liverpool Council does over the coming THREE YEARS is unwelcome and highly suspicious: it's as if our Right Wing [80 seats majority] Government has already decided that Liverpool is NOT TO BE TRUSTED, whatever we do. BUT they send every Refugee who speaks no English TO Liverpool, where we are expected to "look after" them with NO financial assistance from London. AND we can "get by" with a crumbling road and-rail infrastructure while billions are poured into a High-speed link which bypasses Liverpool and nobody else wants At a time when Liverpool's population is GROWING it is complete NONSENSE to REDUCE Council wards from 90 to 85. Even worse, rushing through an "All Out" election system ANNUALLY instead of allowing Councillors to 'get their feet under the table' for 3 years [minimum] is a recipe for disaster. There is NO opportunity for forward planning or a semblance of CONTINUITY. Liverpool has the opportunity to grow and develop in several different, amazing ways as a Tourism and Commercial Centre. OUR docks are 'facing the right direction' for trade with the Rest of the World once Europe stops trading with the inefficient ports along the south coast - we did this once before, when our ships FED this country during WW2.. Perhaps it is time to consider an autonomous Independent Republic of Greater Merseyside..

Effective Cycle policy. Ref Article p.6 in tonight's *Echo* "Cyclists on Lookout ..."

I lived most of my working life in Denmark. Copenhagen is of comparable size to Liverpool.

The traffic "Circulation" [Bus - Train - Tram - Cycle - Car AND **Pedestrian**] is an ideal model of how a system can work effectively with a minimum of delay and/or accidents.

Amsterdam (NL) is another example of how Liverpool COULD do far better.

I add these few sentences to my earlier contribution after reading the above article. Hope this helps!
