### Comment text:

Strongly disagree. Eradicating wards such as 'Toxteth' is disrespectful to both the cities heritage and people. Toxteth holds so much of this city's history and also future in its name with many of the people proud to be born and raised in the ward. All this does is segregate people more and create a 'cult' mentality not only against others but the council themselves which after the past few years is not what this city needs. We need trust and unity in our council and eradicating part of our cities culture/ history and heritage is not the answer.
