Organisation Name:

### Comment text:

Liverpool is made up of villages That's what makes us unique and a fab city. Why again are you trying to change the history of our city. We are not Manchester. Stop taking our history away from the city. Is it not bad enough that you are building a stadium at the water front disrupting our city infrastructure. For tourist. A new ground should be in stanly park for both teams like Milan. Quit spending money on hair brained ideas like this. Who ever thought Of this clearly was not born in liverpool.
