Comment text:

Wish for croxteth country park to become its own ward as we are a very large privately owned housing estate that pay a substantial amount of council tax, we are left behind in regards to any service from the council, resources are given to croxteth and norris Green areas whom we share the same ward with councillors attitude towards us is we are an affluent area so do not deserve any basic services ie school parking issues, paths kept clean as council do not recognise them as there responsibility, rhys jones center has been neglected. This treatment is unfair to our estate and hope by becoming a independent ward we could be represented fairly.
