### Comment text:

I am utterly appalled at the proposal to split the Matchborough Ward between Greenlands and Winyates, with Ipsley going into the Greenlands ward. it is interesting to note that on the boundary markings on the plan, Matchborough ward (which includes Ipsley), is the only one that does not have its title superimposed. One tends to think therefore that this is a foregone conclusion, a deliberate attempt to eradicate a ward that coincidentally just happens to have two serving councillors who represent the views of their electorate, rather than slavishly follow the party line. God forbid that such a thing may catch on! With the issue of the proposed new cemetery very much alive and exercising a lot of people in that ward, and which no doubt caused a lot of hassle and extra work for the Council, one is invariably drawn to the conclusion that this is nothing more than petty political spite. I urge that this proposal is completely rejected.
