Comment text:

As a resident of Great Hollands since 1969, I would heartily support the proposal to make Great Hollands North and Great Hollands South into one Ward. The estate was specifically designed so that all roads led to the hub of the estate - which in 1971 became Great Hollands Square. In effect becoming one self-sufficient community. Since completion all residents have converged on Great Hollands Square for shopping, medical needs, schools, access to public transport to all other areas of Bracknell Forest, Reading and Camberley and, most importantly, the community centre. A very thriving building catering for all ages and activities. The Great Hollands Community Association does not discriminate between South and North Great Hollands. Its newsletter is distributed to ALL residents and its website covers the whole of the estate. Electorally, therefore, it makes no sense to form a division within this tight knit community.
