Comment text:

I moved to this area to be part of the Warfield Parish and community and Harvest Ride ward. I can understand that with the number of new houses developed in Woodhurst Park that you are seeking to balance voting numbers. However why not just join everything into one or put Woodhurst Park into Binfield as the new additions? I feel that putting the boundary where you propose will have a negative impact on our area, house prices etc and am not in support. Further I do not believe there has been enough exposure to your proposal in order to consult with us and for the general public to provide comments. Who do we claim against for our loss of equity when our house prices fall as a result? Rhetorical question as I intend to find out and take action if necessary. We moved to Warfield not Priestwood and Warfield is a very different area with different concerns.
