Comment text:

I believe that Crown Wood and Forest Park should stay as one as we are more closely associated together. If you live in either Crown Wood or Forest Park you will 100% go through the other on near enough every journey make. If you are to go to a convenience shop or a pub, park or community hall, that you are likely to go to one or the other within those areas, but you're not likely to go to Harmans Water if you live in Crown Wood. Harmans Water, The Warren and Martins Heron are also better associated together geographically and accessibility. Where as if you want to combine Martins Heron with Forest Park they are separated by Savernake Park. Forest Park should stay with Crown Wood they share a bus route. If you need to still change it just keep Forest Park with Crown Wood and Harmens Water as they all share that route, logistically you wouldn't put Forest Park into a ward that doesn't have more connection.
