Subject: Boundary Review - North Lake area (Hanworth)

Dear Sirs

I am writing both as a resident within the Hanworth ward (our house backs onto woodland to the rear of The Wilde Theatre in South Hill Park) and as BCA Chairman of ward. We have lived in Bracknell for four years now, and until I saw the new Boundary Recommendations I (in common with most residents surrounding the park, I am sure) was not aware that the North Lake/North Field area was not part of our ward. This is because our Councillors and Members of our Committee often get involved in events, activities and problems at South Hill Park in which the North Lake area is central (varying from advice to residents on visiting funfairs to organising litter picking squads).

It would seem eminently sensible for the whole of South Hill Park's grounds and amenities to be incorporated into one entity, and I therefore heartily agree with the suggestion within the BFC Boundary Review submission that the North Lake area should now become part of the Hanworth ward.

Should you wish to contact me concerning this matter, my details are below.

Yours faithfully,
