### Comment text:

With regards to the new boundary proposals, I would like to put on record my total disagreement with the area involving Quelm Park and Warfield. We moved here 10 years ago to become part of the Warfield and Binfield community. We paid a fair price for our property for that privilege and we enjoy the joined community spirit which came with that. I totally disagree with Quelm Park being swallowed up with Priestwood and Garth as do most of my surrounding neighbours. There are numerous negatives to this proposal and one which I am more concerned about is property values. If this proposal does get passed, then please be assured if, as we all believe, our properties value fall, we will all hold Bracknell Forest Council and subsidiary councils responsible and will take any action necessary for compensation. Also, if services decrease on and around our estate we will also be looking for a reduction in the fees charged by BFC. You have tried to sneak this change through, but you should not underestimate the underlying anger within our community towards BFC and these under handed actions. David Rance Atte Lane
