Leave the boundaries as they are! Why alter them if it's working as they are, I have not been in the area very long a few years, but in that time I have made some great friends, most are in the ward closest to me in Murrow, I am a member of the the village community litter pick and also follow the local activities, what is proposed will upset the apple cart, at first glance nothing really will change but at closer inspection , a lot of changes to the way things will have to be done, at the moment ppl have a clear idea of the way things happen, if it's changed ppl will have to learn it all over again, leave things as they are, it works ! Why break it?
