### Comment text:

Concerns about medical treatments and ongoing hospital treatments when required. Upwell surgery is the closest to Christchurch without having to cross the 16ft bank and so is kings lynn hospital. This would cause those living in Christchurch to have to commute further and cross the 16ft bank when we do have a surgery closer. Also concerns about those in Christchurch to lose their vote for their independent councillors because of this rearranged idea. I think the current ward suits those in Christchurch just fine!
