### Comment text:

Because I'm unable to find out why these changes are being made and what the direct or indirect benefits will be to the public it's difficult to make comments. However it does appear that the proposed wards, especially Wisbech Walsoken and Waterlees are too large, regardless of the number of councillors per the population of the ward. Be clear about Why these changes are being made, the benefits that will be delivered and at what cost to whom.
