### Comment text:

The woodlands and kings farm banding has polar opposites in terms of needs and representations... are you also proposing that there be one councillor from woodlands road area, one from Singlewell road area and one from kings farm area? You have banded possibly the least and most expensive housing in one band and I can't see either area being fairly represented by 3 councillors unless it's is a requirement that one must come from each of the areas... Wrotham road area will have different issues to those who live in Singlewell road, one of the most expensive roads to live in, which again will have different issues to those who live in Kings Farm. That goes for some of the other areas banded too. Istead Rise will have different needs and representations to Luddesdown for example.
