Comment text:

I live in Roden () currently part of Ercall Magna Parish. The existing links with High Ercall are key to our hamlet. High Ercall is home to what we consider our local village hall, our local shop, the primary school my son will go to, the nursery setting he currently attends. We have no links to places like Little Wenlock which would be in our proposed new parish council area. Roden needs to be in the parish council alongside High Ercall as this is our local parish centre. I currently engage with our local parish council but if this change is to be made i can see we will become a forgotten hamlet on the edge of the boundary.
