### Comment text:

I moved to Apley at the beginning of 2021 and would worry that the change to Apley Castle and Leegomery will have a negative effect. Apley has an appeal centred around the wood, pool and the historic parts of the area, a lot of hard work has gone into Apley by local councillor Karen Blundell to establish it as an independent ward and make improvements to the area. I am sure lots of hard work has also gone into Leegomery by the councillors there too and merging the 2 areas would be a backwards step. Merging the 2 areas I believe would have a negative effect on the house prices for Apley residents Previously in 2009 95% of residents supported the name change from Leegomery to Apley for my postcode and from the neighbours I have spoken to don't think that opinion will have changed
