

Re Withdean, Preston Park and Goldsmid wards. I think that the part of Withdean east of the railway line should be in Preston Park ward. It's always seemed odd that Prestonville (Coventry street, The Port Hall streets, Exeter street etc) are included in the Preston Park ward. I think the part of Preston Park ward west of the railway line (Prestonville) should be put with Bhasvic and the Goldsmid streets around Seven Dials. The boundary lies along Dyke Road for historical reasons but Seven Dials are where the people of Prestonville shop locally, alongside the people of Montefiore, Highdown, Cissbury, Avondale etc roads. Fiveways seems like a different part of the city. After 20 years I regularly forget which ward I'm in because it's never made sense to me. Seven Dials is more than ever a distinct part of the city and the wards should reflect that.
