

I am trying to find any facilities here.. we have a Rev and a park. We do not have any useable hygienic swimming pool, our pavements prevent easy walking to neighbours and things that impact on us as ward residents are dictated to by the whims of others eg cycle lanes. Do we need 3 councillors when more modern methods eg local referendums for local Issues. The planning system ignores local voice and engagement and fails to balance resources to new build eg schools, dentists, GP, sewerage etc and the impact on space.
