

I live in St Peter's & North Laine Ward in Providence Place. I like things as they are. I am happy with my 3 Ward Councillors. This consultation is happening at the wrong time as there is so much new development happening in the immediate vicinity - Longley Place, 5-8 London Rd, the Co-op Boots development, other minor developments in Elder Place, the rethink of New England House, the new MET college and the development facing it in Pelham Street. All this is going to make a huge difference to the area and we need continuity in our contact with the Council. Our councillors understand the area and its problems.
