Organisation Name:

Comment text:

You can hardly say that you are asking for LOCAL views when as a resident of Parson Drove I have just been made aware of these proposals 4 January 2022. What will it benefit other than to increase bureaucracy by a further increase in Councillors whom we never actually see now, unless they make headline news! More costs more reorganisation more paperwork, just a further cost to our pockets and for what real reason other than pure and simple political advantages to a certain party. These proposals should have been fully publicised BEFORE the last local elections or now need to be open for the whole of the. residents within the affected parishes to vote, I thought we lived in a democracy but the more I see and hear of the Fenland Council and the Cambridgeshire County Council political methods I realise that we no longer do !
