Organisation Name:

Comment text:

What an absolute waste of time, money and effort. More people talking and fewer people doing. Self serving government policy to create yet more people to talk about more things and waste more time. This is just ludicrous. FEWER Councillors are needed. Faster decision making. More resources spent on the people of Fenland NOT the Councillors of Fenland please. Stonald, Lattersey and Bassenhally could be consolidated. All those things around Peckover could be consolidated. Does March really need three districts? Too much bureaucracy, too many people talking about micro-management and no one actually making a difference to the strategic aims of growing the economy and social levels of Fenland. What a waste. What an absolute waste.
