Please take this an objection to split the properties that form part of the Ethelburt Avenue conservation area in Leaside Way and Bassett Green Road from the Swaythling ward into the Bassett Green Road. This seems that it would add a level of complication to the administration of the conservation area for both the council and the residents association that is not needed. I can see no be if it in having the estate split between 2 wards and hope that the council will revise the ward boundaries to keep the conservation area in 1 ward.
