Comment text:

NO ROOM PROVIDED FOR FULL RESPONSES we don't want boundaries to change and want to retain our Southampton heritage i.e., the reason that this generally happens is playing with public funds which is just not on. We also dont want our city to be overtaken by students and Southampton University whereby true legally british sotonians do not have any housing... We want to retain our boundaries as is.. we receive communications like this far too late and never listened too. Surveys such as this one does not truly cover all members of the public especially the elderly who do not have IT systems and would not know how to use them and therefore not safe for them to use.
