Comment text:

I strongly support the change to the ward boundaries which would put my address into Freemantle ward (currently Millbrook) as I consider this change would better align my interests with those in similar types of housing, transport needs, and in relation to prevalence of crime, etc. Currently I consider the councillors concentrate more on issues on the other side of the Millbrook ward to where I live and so I do not feel my interests are properly represented. Being in Freemantle ward instead would help to address that.
