### Comment text:

The current proposal to add Golden Grove, Kingsland (large ethnic population) into the Bevois Ward (another high ethnic population ward) will only make this ward mostly Ethnic, transient community only. The challenges will increase and It will further increase deprivation and disenfranchise these people not having links to other mix of population wards to work with each other, resident associations and share ideas. They will remain in their own bubble. Investment will also not get shared between wards. For this reason I would propose that Golden Grove remain in Bargate and add areas of Bargate North into Bevois or section of Bargate South. see attached file rough idea. Wards need to have a mix. This will also separate deprivation between two wards.
