[REDACTED] [REDACTED]

We would like to support the Fenland District Council revised proposal for a Council size of 42, split into 18 wards.

We support  
joining Manea with Chatteris. It is clearly too big to be a ward on its own and Chatteris is the closest area to this.

We support the LGBCE's initial proposals which exclude Benwick from Whittlesey and put it in with March. This is because we feel that people living in Benwick look to March more than they do Whittlesey. We also support FDC's plan to include Christchurch with March, this is also because residents there see March as their closest town

We support the LGBCE's draft proposals for re-warding in the Wisbech and Villages area, particularly the inclusion of the more rural part of Wisbech Town in the proposed Leverington Ward. Leverington is so closely linked to Wisbech most people don't know which roads are Leverington and which are Wisbech
