### Comment text:

Maidstone Borough Council continues to decieve and hide information in the name of what they feel is best, FOR THEM! How interesting that this announcement took place at a meeting that most residents found out about TWO days after the event. Moving this area to another ward just ensures that there is little opposition the garden city, what do the people of Headcorn care? Its not their infrastructure that's impacted, ots nor their doctors, schools or clubs that are affected by this. Equally, the people of Lenham Parish who are affected by the garden city lose their right to campaign, toobby and have their say.
