The Local Government Boundary Commissioner for England,

Review Officer (Maidstone) LGBCE,

PO Box 133, Bythe, NE24 9FE

30th March 2022

Dear Sir/Madam,

I understand you are in the process of re-defining our local Ward Boundaries.

This fills me with great pleasure and excitement. For years I've felt it would make better sense for us to be under both Ward and Parish of Boughton Monchelsea.

I first moved to the village of Boughton Monchelsea in 1981 and just loved the caring close-knit community and the facilities on my door step.

St. Peter's Church is my go to place for comfort and solace. I enjoy the activities and social events at the Village Hall whilst also supporting the village Post Office and local Restaurant.

In 2002 I purchased my current property in Harling Close, part of the Joywood Estate with the comfort of remaining in the Parish, at least, of Boughton Monchelsea.

In my seven years of retirement I've become more and more disappointed with the total lack of response from the Parkwood Councillors. The person who gets anything done locally is Steve Mumford, Councillor and Chairman of Boughton Monchelsea Parish Council. Steve Mumford has lived in the village all his life and is totally committed and passionate about maintaining its close-knit community and environmental standards.

I contribute, best I can, by being part of the Neighbourhood Watch, a volunteer for Helping Hands and do daily checks on our local children's play area removing any debris and litter.

At 65 years old and living alone I need the comfort and support of being part of a caring community and the Ward of Boughton Monchelsea. I wish to continue doing a weekly litter pick and being able to exercise safely round the estate and local fields and to socialise with like-minded people who care about their environment.

I will be delighted to hear of your progress on this matter.

Yours faithfully,
