### Comment text:

Littleover and Heatherton share lots of services and are very clearly one community. I was raised in Heatherton, but we always said we live in Littleover. We share facilities like the Littleover Shopping Centre, and the Heatherton shopping Centre too. It is really important that this community boundary is respected and maintained. Splitting the ward in half would not make sense. The only proposal for this I have seen is from Labour. They believe that this will benefit them electorally and therefore they are attempting to split the community in half for their own gain. I believe the boundaries that are created should reflect what is best for residents in our local area (my grandparents, parents, friends and neighbours) and not be used as a political tool.
