i am unsure how other people feel but i am happy with the Chellaston ward covering chellaston and shelton lock, the Councillors are approachable and any issues we have as an area are resolved by the three councillors - politics aside. I do not see any changes within this ward to be beneficial to anyone as feel this area is represented perfectly and as they old saying - if it aint broke....comes to mind. this is not an entirely selfish opinion it is based on facts and results and feel that we have a good community listened to and responded accordingly. We have struggled with large lorries coming through main road and this has been resolved greatly to the benefit of the area and i vote that the Chellaston ward remains the same with no changes.
