Saturday 13th August 2022

Dear LGBCE Reviewers,

I support the proposals for 'West Slough' and 'West Central Slough' set out in the pages of your recently-published report.

These are based on obvious breaks between neighbourhoods and have clearly identifiable boundaries. The new wards as proposed for the western end of the Borough will create communities that residents can and will understand and identify with.

I am also content with the proposal for 21 wards, represented by 2 local Councillors each. I support the proposed names for the wards – as these are recognisable to most residents, and reflect actual neighbourhoods and community areas in the town.

Kind regards,

[REDACTED]

(resident of western Slough)
