Comment text:

Borough Green & Longmill with 3 councillors is a geographically cohesive area, with strong community links. Having 3 councillors allows us good coverage in an area of remote dwellings and hamlets, less than three would impact on our ability to serve all our residents equitably. If the criteria is numbers, both Ightham and Wrotham Parishes are geographically adjacent, and that might be a simple way to increase your numbers of electors per councillor, whilst still leaving an adequate number of councillors to cope.
