To whom it may concern

I have recently read that there are proposals to split Partington/Carrington and Sale West and include Partington/Carrington with Dunham and Warburton in a new ward called Western Parishes.

Personally, I am against these proposals.

I feel that taking Partington/Carrington away from our current ward would isolate us further than we already are. I have lived in Partington all my life and whilst the village is not perfect, we are more aligned to Sale West than we are with Dunham and Warburton. With the increase in new build housing and our improved shopping centre, we are not a rural community, but rather an up and coming suburban town.

I would urge the Boundary Commission to reconsider these proposals

With kind regards
