Subject: Trafford Review - Stretford boundaries

Categories: Submissions, [REDACTED]

Dear LGBCE

I write regarding the Trafford boundary review.

As a local Stretford resident, I believe using the M60 as the principal western boundary and the A56 as the principal eastern boundary for Stretford are strong, clearly identifiable ward boundaries that reflect the local community well. The Bradfield Road area is well embedded in Stretford with shared community facilities and should not be divided; key bus routes like the 84 and 15 go across the borough east-west. Conversely, the area east of the A56 naturally looks much more towards Turn Moss, Longford Park and other landmarks to the east and north of the borough while the tram and bus routes like the 263 run north.

As such I support the proposals for Stretford and surrounding areas.

Many thanks
