Subject: Trafford Council boundary review - feedback from a resident.

Categories: Submissions, [REDACTED]

Hello

I'd like to submit my feedback to the consultation on Trafford council boundary review.

I live in Stretford, part of north Trafford and have done so for 20 years.

I used to live in the Clifford ward and still have family that do. So I am supportive of the changes to the Clifford ward to help clarify the Seymour Grove boundary.

I understand that the move to group Lostock in with Davyhulme will create a new Lostock and Barton Ward. It reflects how people live in those areas - if you live in Lostock you are often going west into DavyHulme/Barton rather than south into Stretford. It also reflects school catchment areas.

For Longford and Stretford the changes are to use the A56 as a clear boundary. This is also a very sensible decision as most people feel aligned with the side of the A56 that they live on (myself included). So people who live on the Stretford side (west) would say that they live in Stretford and those that live on the other side of the A56 (east) in the Longford area would say that they live in Longford or near Longford Park. This change helps make the boundary clearer and follows a natural geographical-main road boundary. This will be helpful when it comes to Election Day and people want to know where their nearest polling station is.

I am supportive of the above changes in North Trafford.

Kind regards
