Subject: Flixton/Davyhulme/Urmston boundary changes
Categories: Submissions, [REDACTED]

I am writing to give you my views on the proposed boundary changes in Flixton, Manchester.

I support my address and location remaining in the Flixton ward and offer my support the revised ward boundaries in my locality.

The councillor and Westminster constituency support, services and amenities we enjoy is fantastic, but ensuring that people feel connected and appreciated as stakeholders is vital. The proposed changes will foster a much closer and accurate geographical community.

Therefore, I am strongly in support of the revised boundaries for all 4 wards in the Urmston area. It is particularly pleasing to see that the area around Woodsend Circle my local shopping centre for late night shopping, as well as a fabulous renowned local butcher, will become part of a new revised ward. For those of us living nearby and who all shop there in the new parade of shops as well as the shops and services which have been there for many many years, it makes such sense for them to be in one ward using and sharing the same local amenities.

Often all that happens is that people aren't happy and so are keen to complain, but I'm writing to offer my support for these changes, it's logical and much better for this area in the long run. Better together, as the saying goes.
