Comment text:

Its a good proposal and meets the three main statutory requirements. My own ward area Headless Cross and Oakenshaw makes a lot of sense as the areas merge and there is no defined boundary between the communities, with both having many shared facilities, ie. Oakenshaw people use the Headless Cross shops and takeaways and both communities using the big Tesco. It is easy to walk between the communities and many Oakenshaw people use the Middle School in Walkwood (Headless Cross). It makes sense linking Wyre Hill as we have the shared woods between Oakenshaw and Wyre Hill as a community recreation facility, both areas have similar housing. The proposal also keeps the name of the ward which whilst not that important is a nice touch.
