I am commenting on the proposal to move a part of Scotforth West to Scotforth East as I live in this part of Scotforth West and have done for many years . If the proposals are to reflect community interests and identities then I feel that I and my neighbors have closer.links with Scotforth West .I am a member of 2 community groups which are Friends of Greaves Park and Friends of Dorrington Woods both in Scotforth West and these green areas provide community areas for leisure and play .My local shops and places of worship are in Scotforth West . St Paul's Parish Hall which provides a range of facilities and is also my polling station is in Scotforth West as are my bus stops for local transport links . Looking at the new boundaries they don't look like natural boundaries and are a bit random , probably to achieve the numbers required but this should not be at the expense of residents sense of identity and community links .
