Comment text:

I live in Scotforth West, on [REDACTED] which to me and many other local people is a part of Greaves, the older name for the area. Our links are with the local park, and across the A6 to the streets running down to the railway line. Schools (primary and secondary) and churches (CofE, Methodist) on the western side of the A6, Greaves Road are also part of our community. It seems strange that the proposed boundary changes would place us in Scotforth East which we would not see as our "natural" local community. I would prefer to that my ward remains Scotforth West.
