Subject: Derby ward boundry changes

Apparently a proposal has been put forward to split some ward boundries in Derby City. On looking at the proposed changes, we notice that some areas are to have their boundry changed leading to a break up of established communities. These communities are long standing and well formed. Splitting of these communities will be detrimental to certain areas, and are not condusive to the harmony of residents and do not appear necessary. We understand that reviews have to take place, but were led to believe that boundries would remain the same and councillors would adjust to the current layout and feel very let down by this new suggestion.
