Subject: Alvaston ward boundary review

[REDACTED] [REDACTED]

I have just been made aware of the proposed boundary changes for Alvaston ward.

I have lived in Alvaston for all of my married life, 53+ years.

For much of this time the spendthrift Labour Party held the ward seats e.g. £50k+ wasted on so-called artwork, consisting of upright metal girders and guy ropes, better described as scrap metal.

In recent years the population of Alvaston ward have realised this fact and been well represented by an alternative set of local councillors.

I believe that these proposals are an attempt, by Labour to win back the seats by changing the Alvaston ward boundary to their advantage.

The leading party of the Derby city council has in recent years changed back and forth between the the parties. This I believe to be a good thing, so to change boundaries in favour of one political party would be detrimental to the good city of Derby.

To this end, I wish to object to the proposed ward boundary changes.

Yours sincerely,
