Comment text:

The southern part of the Oakwood ward should stay as it is where it runs behind Fiskerton Way to Morley Road. The draft proposal would mean that electors on Copes Way/Martin Drive would have to drive through an existing ward to access their polling station in the new Oakwood ward which is not in keeping with the usual aims of these changes. These streets are not part of the Oakwood Community and it would be a nonsense to try to include them. Otherwise I agree with all the other changes to the Oakwood Ward.
