Comment text:

NO to this draft. Reducing the wards on Canvey is ridiculous and is purely politically motivated to grant the mainland an even more unfair majority over the whole borough. Already Canvey has more people per councillor than the mainland by far so this makes zero sense other than to make sure the Island councillors (mostly independent) can never form the lead group within the borough ever again. This is an outrage to Canvey people and especially those living in the Weat Ward that would be abolished. It is anti-democratic, and this draft should not be adopted.
