### Comment text:

As a resident for 20 years Drakes Broughton, in my opinion, has little no association with with Norton and Whittington the natural association is with Pershore or the surrounding villages as per the original proposal. Drakes Broughton is a village, perhaps a growing or large village but it has so few services I can not see it as a town even a small town. I strongly prefer the original proposal to group with villages or reconsider and add to Pershore.
