Comment text:

As a resident of the rural hamlet of Pirton, I already feel ill-served by the arrangement binding us to Drakes Broughton. This has grown into a small town, lacking infrastructure and facilities and with very little in common with Pirton. Its concerns dominate Parish Council business. Pirton risks even bigger neglect under the current proposals to tie us all to the Worcester suburbs of Norton and Whittington. This area has few links to Worcester. Pershore is our main town for schools, doctors etc. We should remain with Parishes with a rural focus, where we at least share an interest in the threat from current and planned overdevelopment.
