### Comment text:

Good afternoon Thank you for giving me the opportunity to voice my concerns over the proposed ward changes that would likely affect the proactive community village life that I have enjoyed for over 25 years. Wick is best represented by Fladbury ward as it is a rural working village and hence I do strongly feel that Wick needs to remain in Fladbury ward which in my opinion would cater for our rural requirements better than Pershore town would, with our 1/20th population representation when compared with Pershore. Therefore, why change for the sake of changing, when it would add uncertainty to the representation we currently have within the Fladbury ward? With kind  
[REDACTED]. Wick
